

Enzyme Waste Digester

Bio-Safe Waste / Ejector Pit Cleaner

Enzyme Waste Digester is a ready-to-use enzymatic with D-Limonene blend specifically formulated to degrade and decompose sewage, grease, soap fat, and detergent build-up naturally and efficiently. It is an alternative to harsh or dangerous chemicals. Use to clear clogged septic tanks, grease traps, cesspools, drain fields, and leaching beds. Does not harm plumbing and pipe fixtures. Reduces bad odors. Great for weekly maintenance to keep systems clear.

- A ready-to-use enzymatic with D-Limonene blend
- A non-toxic, non-hazardous alternative to harsh or dangerous chemicals
- Liquefies sewage, grease, soap and fat
- Dissolves detergent build-up
- Promotes drainage, reduces odor
