

5 Gallons

ProFrost CI-40

Propylene Glycol 40% Solution with Neon Green Color & Inhibitor

Fresh New Look, Same Great Product!

- Ready to Use 40% PG Formula
- Contains Corrosion Inhibitor & Color
- 40% Pre-Mix Concentrate
- Non-Toxic, Biodegradable

ProFrost is an industrial coolant and heat transfer fluid. Recommended for industrial applications and operating systems where it could come in contact with food, beverages or potable water. It is excellent for HVAC systems of all kinds: thermal storage, water chillers, computer room cooling centers, solar systems, combined heating and cooling loops and radiant heating systems.

ProFrost CI-40 40% Propylene Glycol with Color & Inhibitor

DETERMINE TOTAL SYSTEM CAPACITY
Measure length and diameter of all pipe in the system and then estimate the system's total fluid using the chart below.

TYPE "L" COPPER TUBING STANDARD STEEL PIPE

Tubing size (inches)	100 ft. of tubing	Tubing size (inches)	100 ft. of tubing
3/8	0.754	3/8	1.0
1/2	1.21	1/2	1.6
5/8	1.81	5/8	2.8
3/4	2.51	3/4	4.5
1	4.28	1	6.3
1-1/4	6.52	1-1/4	10.20
1-1/2	9.25	1-1/2	17.00
2	16.06	2	27.50

DIRECTIONS FOR READYING THE SYSTEM: It is important to remove any dirt, oil or metal filings that may important to remove any dirt, oil or metal filings that may contaminate the cooling system's piping. Flush the system thoroughly using a mild cleaning solution or high-quality water. Completely drain before charging with Anti-Freeze Solution. **Note:** Cleaning new systems is just as important as cleaning old ones. New systems can be coated with oil or a protective film. Dirt and scale are also common. In many cases, for both old and new systems, special cleaners are needed to remove scale. For more information on cleaners, contact ComStar at 1-800-328-0142.

Contents: Propylene Glycol (CAS# 57-55-6), Water (CAS#7732-18-5), Corrosion Inhibition Package, Food Grade Dye (CAS# N/A).
