Paint Remover

Heavy Duty Paint Stripper

Paint Remover is an environmentally safe and very effective paint stripper. It removes the hardest and most durable paints in minutes.

Paint Remover works best when parts are dipped into the solution. The longer **Paint Remover** is left on, the easier the paint melts off. Can be diluted with water, if desired.

DIRECTIONS:

1. Clean surface.
2. Apply liberally with brush or power spray.
3. Allow it to soak for several minutes.
4. When done, wash tools with clean water.
4. For best results, dip parts into Paint Remover and leave until paint loosens.

CONTENTS: Butyl Cellosolve (CAS#: 111-76-2), Methyl Pyrrolid (CAS#: 872-50-4), Surfactant Package.

STOCK NO. 55-030
5 U.S. GALLONS
